Summary

Third-year Computer Science undergraduate (CGPA 8.89) and Native Android Developer specializing in Kotlin, Jetpack Compose, and Clean Architecture (MVI/MVVM). Shipped **PDFit** (4.5-star) and **InnoGeeks** (KIET's official club app) to the Google Play Store. Coordinates the Android domain at InnoGeeks Club, instructing **200+ students** in Kotlin & Jetpack Compose. Proficient in Data Structures & Algorithms (Java), REST APIs, and offline-first system design.

Education

Bachelor of Technology in Computer Science and Engineering

August 2024 – June 2028

Krishna Institute of Engineering and Technology (KIET)

CGPA: 8.89 / 10

Senior Secondary (Class XII), Central Board of Secondary Education (CBSE)

2021 – 2023

Elpis Global School, Biswan, Sitapur

Percentage: 89.2%

Technical Skills

Languages & Frameworks: Kotlin, Java, JavaScript, Jetpack Compose, Material Design 3, Coroutines, Flow, React, Node.js, Express, Data Structures & Algorithms (Java)

Databases: PostgreSQL, MongoDB, Room, Firebase

Architecture & Patterns: Clean Architecture, MVI, MVVM, Repository Pattern, Dependency Injection (Koin, Hilt), REST APIs, Ktor

Tools & Platforms: Git, GitHub, Android Studio, Gradle KTS, Linux, VS Code, Claude Code

Projects

InnoGeeks | *Kotlin, Jetpack Compose, MVI, Clean Architecture, Koin, Ktor* | [GitHub](#) | [Play Store](#) **Jul 2026 – Present**

- **Designed and shipped** the official Android app for **InnoGeeks**, KIET's largest technical club (~**1,500 applicants** annually), to the Google Play Store; built **20 screens** in 100% Jetpack Compose spanning guest browsing, a complete authentication suite (self-serve signup, email-gated login, password reset, account deletion), and a recruitment tracker that surfaces live status across fee payment, aptitude test, interview, and final decision.
- **Engineered** session-driven role-based navigation rendering distinct tab sets for Guest, Registered, Member, and Coordinator roles; structured the app as Feature-Driven Clean Architecture with formal MVI, a zero-Android-import domain layer, and typed error transport, wiring live REST endpoints over Ktor with Koin-swappable in-memory implementations and DataStore token persistence; frosted-glass Haze UI backed by **111 Compose previews**.

TradeX | *React, Node.js, Express, PostgreSQL, Gemini API* | [GitHub](#) | [Live](#)

Nov 2025 – Apr 2026

- **Built** a full-stack AI-powered trading platform for the Frostbyte Hackathon Grand Finale, featuring real-time market data across Crypto, Stocks, Forex, and Commodities with a React 18, Vite frontend and Node.js/Express, PostgreSQL backend deployed on Render.
- **Engineered** a Gemini Flash 1.5-powered signal engine computing RSI, MACD, Bollinger Bands, EMA, and SMA, delivering BUY/SELL/HOLD signals with confidence scores, price targets, and full reasoning; implemented TTL-based in-memory caching to prevent API rate-limit exhaustion and rule-based fallback to guarantee signal availability.

PDFit: Offline Document Scanner | *Kotlin, Compose, ML Kit, Room* | [GitHub](#) | [Play Store](#)

Jul – Sep 2025

- **Designed and deployed** an offline-first Android document scanner to the Google Play Store, reaching a **4.5-star rating**, using Kotlin, Jetpack Compose, and Google ML Kit for edge detection, perspective correction, and instant PDF generation.
- **Architected** an offline-first document management system using Jetpack Compose, MVVM, and Room Database, delivering ad-free, cloud-free local storage and seamless PDF sharing.

Achievements and Certifications

Co-Curricular: Android Domain Coordinator, InnoGeeks Club, KIET (Sep 2024 – Present), instructing **200+ students** in Kotlin & Jetpack Compose through structured classes, code reviews, and architectural guidance; Organizing Team Member, **NASA Space Apps Challenge 2025, KIET**, co-coordinated campus 48-hour hackathon covering mentor scheduling and event logistics.

Certifications: AWS Certified Developer – Associate (2026) | AWS Certified AI Practitioner (2026) | AWS Certified Cloud Practitioner (2026).

Academic: Maintained **8.89 CGPA** (Top 5% of class) at KIET while leading technical projects and a 200+ member developer community.
